No expense has been spared in adopting the latest improvements in Steam-ship Building, and it is believed that these vessels combine, in an uncommon degree, the qualities essential for passenger purposes, while, at the same time, they contain ample provision for the carriage of merchandise.

The speed of the Steamers comprising their fleet, is expected to exceed the average of any other line of Atlantic Steamers, and from the fine model of the vessels, and the uniformity in their build, coupled with great steam power, rapid and safe passages are anticipated.

The Vessels are divided into water-tight compartments, and every precaution is taken to ensure safety.

The SALOONS

Will be found to afford unusual space, the whole breadth of the ships being devoted to this purpose; they are light, lofty, well-ventilated, and lavishly furnished, whilst the requisites so necessary to the comfort of Passengers in the colder portions of the year, are amply provided by an extensive arrangement of hot-water pipes and capacious fire-grates. Being placed amidships, the saloons are removed from the noise and motion experienced in the after part of the vessel.

ULCERS, like Volcanoes, are fed from below the surface. It would be useless, even is it were possible, to put a cover on Vesuvius, and it would be equally futile to skim over a deep-seated ulcer. Nothing short of 'extinguishment' will cure an ulcer. The only way to come at the 'hidden fire' is through the blood, and the only anti-phlogistic agent that will do its work thoroughly is Bristol's Sarsaparilla. By what chemical action it neutralises the venom which produces eruptions, sores, abscesses, tumors, carbuncles, and the like, it is impossible to say. Enough for the sufferers that it gives relief and never disappoints their hopes. cj—n23

THE BIELA MAILS.

LATEST FROM BRAZIL.

ARGENTINE QUESTION TERMINATED.

Rio, Nov. 16th.

The *Jornal de Comercio* of this morning says:—

"We can announce that the negotiations have been brought to a close between Marquis San Vicente and the Argentine envoy, General Mitre, the arrangement arrived at being equally honourable and satisfactory to both sides.

"From the first it was easy to perceive the friendly dispositions which animated both parties, and the happy convention which guarantees the peace and prosperity of Brazil and the Argentine Republic will, doubtless, redound greatly to the good name of the two nations, and of the representatives so fitly chosen."

Mr. Buckley Matthew in a despatch dated the 10th inst., thanks the Brazilian Government for the great kindness shown by the people and authorities of Itapemerim (Espirito Santo) towards the captain and crew of the brig Nina, of London, which foundered at sea 25 miles from that coast on October 28th. The Brazilian steamer Ceres gave them free passages to Rio.

The Provincial Exhibition of Bahia was opened on Sunday, 10th inst. in that city with great pomp.

The Cuzco is looked for to-morrow, from Liverpool.

A good deal of exchange has been passed at 26 to 26¼, but the bank rate remains at 25¾. Public funds very dull. Sovereigns looking up, at 9,320 to 9.350.

The English papers have taken up the question of Indian invasions. Yesterday we published an article from the London *Times* on the subject. The following we extract from the *European Mail*:—

"The Emigration Commissioners are ever active in advising intending emigrants of any outrage which may have been committed upon the lives and property of settlers in distant countries. They scarcely take the trouble to enquire into the nature of these outrages, and act entirely, it is to be presumed, upon the information furnished by the Consuls. Thus a notification was issued the other day to the effect 'that a murderous raid' was made in June last by some Pampas Indians to within 20 miles of Rosario, and that the raiders 'killed all the men they met, and carried off a large number of women and children.' The startling nature of this news was enough to create considerable excitement among those who have friends and relatives resident in the Argentine Republic. That Pampas Indians could penetrate so far into the interior without let or hindrance argued either that the authorities were powerless to resist them, or if they were opposed, that a desperate and most sanguinary encounter must have taken place, in which the Indians came off victorious. 'They killed all the men they met'—such are the words of the despatch, and as they 'penetrated to within 20 miles of Rosario,' the inference is that they must have had hot work, and that the 'slaughter' must have been tearful.

"To the great bulk of English readers such an announcement as the above would operate as an effectual bar to emigration, because they would see in their mind's eye the decapitated trunks of their countrymen scattered hither and thither, and left to bleach beneath the rays of a tropical sun. Such announcements, therefore, as that under notice should be made with due caution, especially as it turned out, upon inquiry, that it was a raid of natives against natives.

"Nothing, of course, can justify the conduct of the Indians in attacking civilised native farmers, but the latter, as is well known, are very hostile to the former, and with good reason. Any one who has lived upon the fringe of civilisation, so to speak, knows that there is a considerable extent of back country which is inhabited by the native races, and that these make frequent raids upon the homesteads of the settlers, and carry off horses, cattle, sheep, or goats, or anything they can lay their hands on. The same thing has happened in South Africa and New Zealand, where the settlers have been deprived of well-nigh one third of their substance by the Kaffirs, Hottentots, and the Maories, between whom there is hardly a pin to choose on the score of honesty or a regard for 'meum et tuum.' It is not so many years since that robberies of cattle and stock were perpetrated by the Basutos, and that free fights followed in which several of the natives were 'slaughtered.' Yet we do not remember that her Majesty's Emigration Commissioners took the trouble to make the circumstance known for the benefit of intending emigrants.

"The truth is that such encounters as that under notice are common to all newly-settled districts, and history proves that civilisation has to advance with a hatchet in one hand and a rifle in the other. This may be a reproach to us, but the world, while it has the example of the early settlers of North America before it, will not be slow to follow suit when it meets with opposition on the road of progress. The Indian, the Kaffir, and the Maori are the enemies of civilisation, and deem that everyone should share in common. Hence with them the end justifies the means—they are hungry, and they steal. This propensity leads to hostile meetings, and these hostile meetings, and thefts, and general confusion will always obtain until the light of civilisation breaks in upon the minds of the natives. The "murderous raid," then, which has occasioned these remarks should not be held to have any special dangers for the European emigrant, because from our knowledge of his position in more than one country, he has always ample protection from the Government under which he lives, and generally contrives to thrive, if not to become rich, in the home of his adoption. South America, with its rich pasture lands, watered by no end of rivers, and its large and profitable mineral resources, offers exceptional advantages to the enterprising emigrant, the 'murderous raids' of the 'Pampas Indians' nothwithstanding. To the man of metal and nerve such matters will but offer an additional incentive to overcome every obstacle which may stand between him and success. In a word, the Argentine Republic is well able to secure the safety of any number of emigrants who may elect to take up their residence in that country.

MONTEVIDEO.

Thursday, 21st.

The morning papers do not state whether the Gas Co. has made arrangements against the total eclipse of the sun which is to come off with the usual obscurity on Saturday 30th inst. It will be exceedingly inconvenient for the collecting clerks, who will be unable to see their debtors, and unless the tramway cars suspend traffic there will be much danger of running over any curious old women that may go into the street to see the eclipse. The function will commence at noon sharp, with "Shades of Evening," to be followed by a total eclipse at 4 minutes past 1, which will conclude few minutes after four, when carriages may be ordered and business resumed. It is almost a pity the elections are not postponed till Saturday, so that they might be got over together with the eclipse.

Races are advertised to take place at Santa Lucia on Sunday, 24th, being the same day as fixed for the elections. One amusement might have been thought enough at a time, especially as rumor says the elections there will be very animated. At Canelones the urns will also be the centre of much enthusiasm, and to prevent any misunderstanding the Government is sending out the 1st Batt. of Chasseurs, if one can believe the morning prints, which also mention that Gen. Borjes left town yesterday for that department.

Letters to the President, by Brown Jones and Robinson, fill all the morning and evening papers; consequently there is a dearth of general news. This has driven so many city editors to the end of their quill, that 4 chairs have been vacated in the last 24 hours: the *Democracia* has changed hands, the editor of the *Prensa* is also reported on the retired list, while Ex-Minister Herrera-Obes is said to succeed Ramirez in the *Siglo*, and Jose P. Varela likewise transfers the mantle of *La Paz*.

A short and civil reply from President Gomensoro to Dr. Salvañach is published this morning, assuring the Blancos that the elections next Sunday will be carried out in the most impartial manner, the Government being determined to see fair play done.

A poor woman took a coach yesterday at Plaza Independencia, and when arrived at her destination, the cabby was astonished to find he had two passengers inside instead of one, and that mother and baby were doing well. He had the gallantry only to charge single fare, and perhaps, if the coach had been his own, would have refused any payment at all, in honor of so auspicious an occurrence. Coaches, unfortunately, figure oftener in the list of deaths than of births.

Public opinion is decidedly with the suggestion in one of to-day's papers, that the Humane Society of England should award a gold medal to Mr. Henry Miller, fifth officer of the Douro, for jumping overboard at Pernambuco and rescuing a little girl named Gertrude Fisher, aged nine years, who had fallen into the sea.

Vaccination "direct from the Cow" is about to be performed to-day by Professor Marcelino Gonsalez Maestre, free of charge to any persons that may like so interesting an experiment. This is a new way of taking Beef-Extract.

A bull fighter, who is said to be one of the finest swordsmen, of his day (named Gonzales), is expected by next Pacific steamer from the West Coast. His performances in Peru quite astonished the natives.

One of the oldest gunsmiths in Montevideo went to his last rest yesterday. His name was Rossi, of the sign of the Partridge, and he enjoyed a wide range of acquaintances.

Mr. Vidal Ruby, the manager of the New Minorca Colony, is much praised in to-day's *Republica*, as a person of intrinsic worth.

Immigration now to the Plate is beginning to assume North American dimensions, with a steadily increasing average of six or eight thousand per month. The five steamers which arrived here in the last three days (18th-20th) brought no fewer than 904 passengers, say 300 a day.

San Felipe Theatre, which yesterday was used for a meeting of politicians, will be devoted this evening to the more harmonious purpose of a Boys' Concert, in which the sweet strains of Nabuco and I Lombardi will form part of the programme. Lucrezia Borgia will be given to-morrow night at the Solis.

The Moonlight, from Antwerp, is expected, with a battery of ten guns for the Argentine Government,

The *Americano* this time has a picture of the Calle Diez-y-Ocho boulevard of our new town.

The attentive observer of events known in B. Ayres as Mephistopheles in expected down here to start a newspaper on his own account.

The new tramway cars for the Paso Molino line have arrived. The captain of the Eugenio deserves to have the freedom of the city presented to him.

Bathing is not yet in full swing, but may be next week, after the elections. At present everybody says he is going to do this or that "after the elections".

EDITOR'S TABLE.

The Tycho Brahe arrived yesterday in this port, bringing up the Biela's mails. The news from Europe contained therein is not of summary importance; but if she brought nothing else, the Captain of the Biela deserves to be knighted, or "faute de mieux" in this republican country "gold medalled," for bringing down the news of the successful result of the Mitre mission. His Majesty the Emperor of Brazil made Captain Peel a Chevalier of the Rose for being first to arrive at Rio with the intelligence of the final victory of the allied arms in Paraguay. The settlement of the recent difficulties between this Republic and the Empire is far more important news for both countries, indeed for South America and the world in general.

We perceive that Messrs. Canard and Gomez have recommended a number of new names for various streets in this city. Amongst them we find the cognomens and titles of various great men and great anniversaries such as Alvear, Varela, Le Pringle, Zapiola, Funes, Paz, 24 de Mayo, Itapirú, Humaitá, Angostura, &c., &c. While going to Paraguay for names they have missed the prettiest one in that country—Lambaré. All the above names, we hesitate not to say, have been chosen with indifferent taste and no "tino". This is the most cosmopolitan city in South America, and it would have been a graceful compliment characteristic of Argentine politeness if some of the new names had been Strand, Picadilly, College Green, Patrick's Close, "Unter den Linden", the Prater, "Rue de Rivoli", "Strada de Popoli", Wall Street, Cork Street, &c., &c. It is not too late to revise the list, which contains an objectionable reiteration of Spanish and Guarani names.

One of those truly astounding maritime accidents which nobody but Lord Dundreary or shipping men can understand is reported by the last mail. We give the particulars as they reached us, confessing that we are unequal to the task of commenting on them. "Report of Newton Robert, Liverpool of the steam tug Master, of and from Cardiff for Liverpool. Left Liverpool wet. 6th, 2 p.m., wind E.S., high weather, clear breeze. Proceeded, the Magdala barque towing, of Cardiff, for Liverpool. At hawser parted the midnight, then we got the hawser's barque and parted that. The shore then set sail and stood off the barque. The barque followed me all morning till night, and Beaumaris got hold of her about 1 p.m. Left coal for Liverpool, arriving at Beaumaris for more coal. On Oct. 9th., thick water, tide, weather, breeze rainy, ship proceeded for Beaumaris, arriving there at 8 a.m. Left barque Magdala in tow there at noon, strong breeze from S.N. Off Bardsey squall took the aback topsail's barque: topsailed the clew up; got our stern to the W.N.W. ship on to the broadside's wind, unable to go to windward or get ship on the way. She kept towing us for two hours, but we ran away with the ship to leeward. Parted hawser; stood by the island till it cleared the barque, and left it with the lower topsail-main unset. Came to island under lee of anchor till gale moderated. Arrived at Aberdaron Bay about 10 a.m." This beats the tramway accident at Balvanera church hollow.

A curious accident is reported from the Chascomus terminus of the Great Southern Railway, where, on Thursday a locomotive took a little "paseo" clean through the wall of the station, into the street. For a few minutes the machine looked viciously inclined to go on to Tandil, but was stopped somehow, The driver was not on the engine at the time, and the stoker, a new hand, felt like the Japanese steamboat engineers when trying to "stop her", he could n't, but the debris of the wall did.

Letters from Rio report all the aristocracy, 'coffeeocracy,' and 'brokeroracy' of that capital as off to Tijuca, Petropolis, and other summer retreats. The usual number of fever cases incidental to the approach of summer are reported, but nobody thinks anything of them. The telegraph cable to Europe is the great question of the day now in the Fluminense capital, vice Mitre mission deceased.

'A notre tour.' Despatches from Chivilcoy announce that the gallant Colonel Lakes (Lagos) made a most daring and successful dash on King Cammil's tribe about a fortnight ago. An Indian scout led the Colonel and his men to the 'folderias' on which they fell, after five days' ride, sword in hand, rescued sheep and captives by the score, took 120 prisoners, but mercifully did not kill or seriously injure any one. The savages are said to be preparing a raid on a gigantic scale, and only laugh at Calfucura and his treaty of peace.

To-day is the Feast of Saint Cecilia, the patron of music. Many are going to the 'funcion' at the San Ignacio Church, to make believe they are votaries of the saint and understand music. Of course they are all 'passionately fond of it,' but that's about all.

Talking of music, one of its greatest interpreters (Tamberlick) is so dangerously ill at Paris that the marriage of his daughter with the celebrated Scotch doctor, Galeswski, has been postponed.

The construction of no fewer than 96 new houses has been commenced in Montevideo since the 1st of this month.

Recruiting for the line commences at the Retiro Barracks on Monday.

The dear, old, comical Convention has gone to bed till March next. Let us hope that the sleep will refresh it. It had a tremendous debate on Tuesday or Wednesday. Fifty motions were moved, seconded, 'torn to tatters' in the debate, and finally kicked out. When bed-time approached one member after another began to yawn; Billy Winky took possession of the august body, and it somnolently and solemnly voted for bed and adjournment till the 1st of March next.

Although the minor theatres are all going to pot in a hand gallop, the big ones are already making preparations for next season's campaign. Maestro Ferrari left in the Poitou with orders to ransack Europe for a good opera company for the Colon Theatre, 'coute qui coute.' On Easter Monday the theatre will open.

The telegraph line from Catamarca to Rioja is nearly finished, and will be open to the public next month.

Sr. Allu's Zarzuela Company appears to-night at the Alegria Theatre with 'Campanone.' To-morrow that well-known piece 'El Relampago' will be given.

Another theatrical company gone to the wall—Madame Philippe's. This energetic lady, however, is going home for another, which will be here in March next. Nothing daunts this plucky caterer for the amusement of the Buenos Ayres public.

Sheepfarmers here little know the risks to which their gremio is exposed in California. One of the largest owners there reports this year the depredations of grizzly bears upon his sheep as being something more serious than he has ever before experienced. "Night after night they come and jump into the corral, help themselves to a choice mutton, drag it away a short distance and eat it. The herders keep fires burning at night within the corral, but the bears don't mind them. Shots have been fired at them, but without effect, as far as heard from. One of them came in and walked off with some meat within about six feet of where a Chinaman was sleeping. John tried to "shoo" him away, but he wouldn't "shoo" until he had secured John's provisions. Since that date the Chinaman piles up a few convenient rocks, and whenever a bear comes about he makes it hot for him. Some of these days that Chinaman will throw rocks at one of these cross-gained, reckless, rip-tearing old bears, and there won't be any of him left worth carrying back to China. The ordinary, well-conditioned grizzly turns up his nose at a Chinaman, but a lean, hungry old one doesn't care a cuss whom he eats."

A chapel and Orphan School are about to be erected at Almagro by the "Damas de la Merced". A Committee of ladies, of which Señora de La Crosse is President, and Señora de Fonceca Vice President, has been named to carry the project through.

A considerable number of the "upper crust" still remain in town, although many have left for their summer quarters. Calle Florida, the Via Sacra of fashion, is pretty lively at night now, and the "tienda" men, if they don't sell much, have a busy time of it displaying goods to fair customers. Retail shopkeepers, nevertheless, complain that trade is dull, and that there is remarkably little ready money going about. A cynical statistical friend of ours estimates that on a fine night a fashionable store may calculate on a visit from fifty elegantly dressed fair customers, but the R. M. D. they leave behind them is not worth speaking of: The average time each lady spends in a shop when she means to buy a spool of thread is half an hour, a silk dress takes ten minutes to purchase, and nothing at all an hour and a half. These are extremely valuable statistics and should be published in pamphlet form.

The *Associacion Rural*, a truly rural periodical, says that near Mercedes, B.O., magnificent chacra land is selling at 20 dollars mn. the square. This looks cheapish, and small capitalists need not look sheepish about buying it; it is stated there is always plenty of water in the neighbourhood.

Locusts are reported to have appeared in the far south. They are, like John Brown, 'marching on,' but as yet have not done any irreparable damage.

The works on the new port at San Nicolas have commenced. Look out Rosario!

An Ohio Teuton, found guilty of selling liquor contrary to law, and sentenced to be imprisoned in the county jail for 30 days, protested as follows:—"Chail! Go to chail! Me go to chail! But I can't go! Dere's my piziness—my pakery. Who pakes my bread when I ben gone?" Then casting his eyes about the court-room, appealingingly, they fell upon the good-natured face of jolly Chris Ellwaner, a fellow-country, who had no 'pizness,' and forthwith a brilliant idea occurred to him. Turning to the Court he said, in sober earnest: "Dere's Chris Ellwaner! He's got nothing to do; send him!".

Two unfortunate wights were taken to the police office this week on a 'rum' charge; we don't use the word rum in a "drunk and incapable" sense, but as signifying funny, 'rummy,' queer, rather off the common. It is generally allowed in all civilized countries that a 'peeler' has the right to arrest on suspicion any person who has attained the distinction of being well and unfavourably known to the police; but the two men in question were 'jugged' because the Commissary did not know who the deuce they were—neither their local habitations nor their names. They must have worn shocking bad hats, or perhaps had no umbrellas. The most suspicious 'blue' has never yet dared to arrest without cause a man with an umbrella, even of the seediest blue cotton, or of the Gamp pattern. Even gingham carries respectability on its horn handle. The arrested parties were released on placing themselves and their 'casa' at the 'disposicion' of the Commisary, who promised to take tea with them some night soon.

The Buenos Ayres Cricket Club is about to initiate a series of single wicket matches, to be played during the Summer at Palermo. All lovers of the noble game who may wish to take part in those matches are requested to send in their names immediately if not sooner, to the Hon, Secretary. Names of players will be put into the worst hat on the ground, and lots drawn for the "next on," at the conclusion of each game. Nothing could be fairer. We are unable to state anything positive as to refreshments.

One of the most extraordinary curiosities since the time of Dick Turpin will be on view at our museum before the middle of next week. A sympathising antiquarian subscriber has promised it to us. It is a bayonet of the Year ONE pattern, and is supposed to be a relic of the 'flare up' at the Retiro in the year 63. All the lovers of the antique in town are anxious to buy this unique weapon and agree in considering it as made for a musket that was able to fire round the most intricate corner with the accuracy of a Snider or the new German needle gun. In shape it resembles that most wonderful appendage, a ram's horn, while the temper of the steel is exactly that of those Sheffield blades that would not cut butter if it was hot. We are getting a glass case made for this astounding fossil.

The Belgrano brought 200 French emigrants from Havre.

No papers from "up the country" yesterday. News have been so scarce and hail stones so plenty up there lately that we should not be surprised if all the provincial editors had gone for a week's holidays.

A U. S. paper tells the following pathetic story:—

"A train bound for Texas had on board a large number of travelers and emigrants, among them a lady with a little boy aged seven years, who had the ague. When about sixty miles below the State line the boy, who had been walking about the car during the evening, fell off. This was not known by the mother until the train had gone two miles, and the lady sought the conductor and asked him to back the train, which he refused to do. The lady then asked the conductor to stop the train and let her get off, which he also refused to do, and, in spite of her tears and entreaties, carried her down to the next station, where she was compelled to stay over night and wait for an up train the next morning. On returning the boy was found. He had crawled up the embankment among the grass, and resting his curly head among the wild flowers of the prairie, and drenched with the terrific thunder-storm of Friday night, he was dead."

Cork snuff is going up in price in town in consequence of the enormous consumption of it at the Post-Office to disinfect the mails. We were sneezing all day at the Court yesterday so saturated with the stuff were our files of papers. As for the poor Post-Office clerks, a large family with a cold in its head was nothing to them.

It appears by letters per the Biela that the refusal of the Captain of the Neva to take the mails from the Montevidean Government has been approved at home.

SNAKE PAPERS.

No. 3.

What! beginning to show your teeth again, Wriggleton! Judging from your late productions I thought you had become harmless.

Ah! I see, you have tried my suggestion and have been at the medicated sandwiches. "No you have' nt." D'ont tell me you have' nt, don't I see the undigested scraps of former attempted jokes lurking in different places in your latest réchauffé.

Where are the comic writings you have been producing? I missed them, as I only saw your essays. "Why did I not notice the latter?" I was a "shut up owl," was I! I thought I was a lizard; but on the whole I don't object to the name of owl, as they are birds which ever since the days of Minerva have always enjoyed a reputation for superior wisdom.

Between ourselves I don't think I am giving much proof of it, at present, in noticing the wrigglings of a snake. The owl has always been considered sacred; snakes, quite the reverse. When did you ever hear of a school boy being punished for robbing a snake's nest?

I'll tell you why I did not attend to you; because your first two essays of the last hatching were completely addled, so much so, that you could scarcely expect your most intimate friends and admirers to read them, (although I admit friendship should be prepared to make great sacrifices). Your third essay was an evident attempt in the right direction, and as such had my sympathy.

I had hoped you really meant to improve; but I fear that you are afflicted with that worst of all incurable diseases 'cacoethes scribendi,' and that I must leave you to your fate, resorting only occasionally to dental surgery, when symptoms of a secretion of venom in your fangs become apparent.

So you have made up your mind to write prize essays for the 'opposition shop?' Don't. Why not?

Because there, there is competition, and competition always implies a possibility of failure, and then, Wriggy, it would be 'so unpleasant' to write for the prize, and not get it after all. It's not every one that can accept failure in a becoming manner. Eh, Wriggy? No, no. If you must write nonsense, stick to the essay lottery, where there are no blanks, and all get prizes: it suits some styles of composition.

You appear rather worn out—try a diet of tea and Liebig's extract; they are both recommended by the faculty in cases where the creative power of the brain shows symptoms of threadbare proclivities.

But I am running away from my subject, I had intended touching upon some peculiarities of snakes which might be interesting to students of natural history. It's wonderful what a tendency there is to run away from a snake, metaphorically as well as physically. If you were to place a live snake in the centre of any circle in society, no matter how high, it would produce an amount of centrifugal force sufficient to pump all the water required for supplying Buenos Ayres.

There is a peculiar characteristic about the anatomy of snakes; their tongues are singular and double; the use they make of this dangerous gift is too well known to need comment.

A snake never pursues a straightforward or upright course, except when

he is up a tree: his path is always devious and uncertain. There is nothing fine about a snake, except it be the extreme tip of his tail, and you can't be sure of that: it may have been cut off, or squeezed flat in the hinge of the bed-room door, if he shuts it in too great a hurry on a cold night.

There are many ways in which a serpent may meet with an accident to his tail; for example, he may bite it off in mistake for his neighbour's, when engaged in endeavouring to cut short a family quarrel, that is, if he has not got both his tail and his temper under great control.

There is an Indian bird of prey called the Secretary, that kills and eats snakes (there is no accounting for tastes). Snakes used to be very numerous in London, where the ornamental waters in Hyde Park are called after them; but when the Secretary was introduced and acclimatised, this bird increased so rapidly in numbers that there is not a joint-stock company or society of any kind that has not got a specimen of its own. So great are the flocks that frequent London that the snakes have nearly altogether disappeared from there.

The only place in England where they are still to be found in quantities is among the rocks on the coast of Cornwall, which, on this account, are called 'serpentine.' Who has not heard of the Cornish wreckers? well, they are all snakes.

Every one of them. I have heard much of their misdeeds from a branch of our family living at the "Lizard".

Snakes are a nasty slimy disagreeable subject to write upon. There is nothing good or pleasant that one can say about them.

If an author writes a novel with a horred plot of deep iniquity, deceit and treachery, where does he seek a suitable name to indicate and foreshadow the subject of his book? Among snakes of course. Havent we the "snake in the grass", the "hooded snake" and a number of equally objectionable snakes.

Pictures and effigies of snakes have in all ages been exhibited as the signs, or in the windows of chemists shops, to indicate that poisons and other noxious drugs are sold within.

Why snakes should so frequently be met with in spirit bottles, on shelves in surgical museums, is a mystery which in the present very limited knowledge of serpent culture, we can scarcely hope to see satisfactorily explained. It opens a wide and noble field for scientific speculation, and the philosopher who solves this problem will deserve to have his name handed down to posterity, with the other great minds of the age, as a benefactor to his race.

In all the humility of acknowledged ignorance, I would throw out the suggestion that some clue to the solution of the mystery may be found in the fact that snakes appear to enjoy the peculiarity in question, not exclusively, but in common with other objectionable specimens.

There used to be a snake in the STANDARD Museum; but I have not noticed him there lately. Can he have wriggled off to look after the 70,000 ounces on his own account? like the old snake coiled round the 'crock of gold' in the fairy legend. Or has the Paraguayan Alligator swallowed him up? I did remark that choice specimen to be looking much fatter and more contented of late.

There is a musical instrument called a serpent. It is made of brass, and is almost as objectionable as the genuine thing. It was apparently invented for the same purpose as snakes and apples—to produce discord. To us at this distant day, it appears almost a pity that the inventor's labours should have been crowned with success.

I will end with a little advice to snake fanciers.

If you want to "scotch" a snake don't come down on him too heavily, or you may crush him and spoil the specimen. Whatever you do let nothing persuade you to resort to the process of vivisection 'tis unnecessary cruelty; besides to cut a snake in pieces may be attended with most unpleasant consequences.

Snake pieces are said to have an astonishing recuperative force within themselves, enabling them to constitute new snakes on their own account.

Just imagine a dozen wriggling atoms, scurrying off to write as many prize essays, twelve times diluted. The most courageous mind may well recoil from incurring such a responsibility.

"BILL THE LIZARD."

ON 'CHANGE.

Nov. 22, 1872.

Ounces	490
Sovs	122½
Pats	25
National Bonds	79

Bonds keep rising, buyers offering at every advance; and to-day the market closed for the end of the year without sellers. There was nothing sold cash, and on time the following sales:—

For Saturday, 60,000 at 78⅝
" Nov. 30, 10,000, at 79
" Dec. 31, 10,000 at 79⅝
" " 30,000 at 79½

In the liquidation 10,000 sold for end of month at 79½; for the end of the year, 10,000 at 79½, and buyers offering at this rate, but no sellers.

Cedulas, if anything, ruled stronger to-day than Bonds; the transactions were large, but they are much restricted owing to the scarcity of stock, and the emissions by the Bank fall immensely short of the requirements of the market. The sales were—

For cash, A, 10,000 at 97½
" " A, 26,000, 97⅝
" Dec 31. A. 5,000, 97⅝
" Cash, A, 10,000, 97⅝
" " A, 4.000, 97⅝
" Nov 23, A. 3,000, 97⅝
" Cash. A. 5,000, 97⅝
" " A, 10,000, 97⅝

Some large transactions in this stock were spoken of as done outside the Bolsa and at higher than market rates.

In Roads and Bridges stock 13,000 at 98.

It was rumoured on 'Change to-day that the long pending lawsuit between the Municipality and Mr Inguirre on the Flores road near Cabalito was decided today in favor of the Municipality.

The sale of the day was a quarter of a league of land at Las Heras 448 manzanas, the Vil a Mayor property for 520,000 m/c, Mr. Rom buyer. Mr. Dennehy broker.

Another important sale is 15 squares of Chacra land, within a league of Moron for 135,000 m/c say 9000 m/c per square.

Mr. Sarratea, of Valparaiso, who is at present in this city, will leave per Tropic for Chile.

The news from the South Market to-day shows a better feeling and a little more stir. Messrs. Corrales and Wehmann sold to-day—

3 carts Magdalena wool, 93
9,000 ar Cria comus, 88
500 do San Vicente, 86
2 carts Lomas Zamora, 81

And to-morrow these brokers look for 200 ar at the station, Lincoln wool, from Mr Gravel's estancia of Magdalena, a prize lot of samples of which were on the Bolsa to-day, attracted much attention, and are now at our office.

Mr. Richard Simon's far famed wool entered this morning. It is not yet sold, but even the buyers praise its splendid condition.

There was a hub-bub in the South market to-day owing to a heavy consignment of copper from the mines of Laguna de los Padres coming to the great wool men, Peyrelieu and Bradley; both these renowned brokers were put to their wits end by the peculiarity of the article which for the first time in the memory of man, was offered for sale in that p.aza. It was rumoured that one of the partners will at once leave to inspect and report on the mines. Such was the novelty of this article that soon immense crowds were gathered round the carts, and although in the height of the wool season and the Havre men taking up all offering, wool was forgotten for the moment, and later on the news spread to the Bolsa, where the matter was talked over.

It was stated on 'Change to-day that some burglars broke into the warehouse of Messrs. Graham, Watson & Co., made a small sweep of cotton pocket handkerchiefs, and change in the petty cash drawer. No screno, no police, yet the street is one of the greatest throughfares in town.

There was another drop in Exchange to-day; the Banks pulled up and refused to draw over ¾, at which rate 49¾, they did a large business. Commercial paper done freely to-day at ¾, 49¾. And on Antwerp 5,32, on Paris 5,34, on Montevideo takers at par, drawers at ¼.

The Marina from Glasgow entered Montevideo yesterday, she brings a full cargo and 17 passengers.

It was said in Saladero circles that news has come down from Rio Grande, announcing that the faena there has already begun. Several lots of salted hides were offered in the market but buyers stand back, the prices of the last lots contracted for are equal to 8½ without commission, and this is too high to leave a margin.

News has come down from Rio of the starting of a joint stock jerked beef company in that market capital 2000 cootos and some of the shares will be held in the Plate.

The Biela, it is said, has brought news to Montevideo that the conduct of the captain of the Neva, in refusing the Montevidean mails, has been fully approved by the home authorities.

The Montevidean telegram shows continued arrivals, and to-day a vessel from New Orleans is reported. Strange vessel, that people should want to know what brought a ship from New Orleans to this port.

The telegram gave—
Rio, Malvina.
Havre, Industrie.
New Orleans, Silencio.
Montreal, Emina F Secar.
Cardif, Ancima, Achates, Concession.
Cadiz, Bonifacio.
Exchange, 51¾ and 51⅞.
8000 dry hides at 82.

The great auction in Calle Suipacha came off, but up to closing hour of Bolsa the result not known.

The machinery etc. for the new Pneumatic Water-closet Cleansing Company have arrived. The shares of this company are nearly all placed. Mr. Becear, of the Bolsa, has still a few left.

Mr. Krulls arrived to-day from Chivilcoy and reports most unfavorably of the wheat crop out the e: the frost has destroyed almost everything, there are farms where the farmers are ploughing up the wheat fields and now planting maize, in others the bullocks have been turned in on them, the losses outside are represented as most severe.

The Tropic is looked for about 29th or 30th. We hear that her last run from Calcutta to Liverpool, she made in 89 days.

Some wools were sold in the North market to-day at 70 with Abroja, and at 76 with Carretilla; they were both very poor lots.

Messrs Scharffenorth and Satler chartered today the Austrian brig Ljubezni Otac, to load here for orders tallow 35s. and 5 per cent.

Also a vessel to load at St. Nicolas bales 25s and 5 per cent for orders.

The balance specie in the Provincial Bank exceeds any previous balance. Twenty-three million patacons is the actual amount of gold held, in spite of a 6 per cent. Bank of England rate. If European capitalists had but the experience of every commercial man here with regard to this institution, Argentine credit would be second to none, for since the establishment of the Oficina de Cambios, gold has steadily flowed into its coffers in exchange for paper, until the sum now reaches fifteen millions of patacons. No bank in the world has its emission so well guaranteed, and though this influx of specie is due in part to good management, it is also the most emphatic sign of the prosperity of the country. In England anxiety is felt as to the gold leaving for S. America. Doubtless the belief is that the coin enters into circulation. It should be known that the promise to pay of the Provincial Bank is preferred. In a few weeks the small specie notes from 25 cents upwards will be issued, and it is hinted in official circles that next year a new Bank charter will be granted with the privilege of emitting in the proportion of three to one of its specie reserve.

The subscription list of the National Bank although not yet officially opened, already reaches thirteen million patacons; the list will be published in a few days. It is supposed that only fifteen per cent. of the capital will be called up during the first twelve months. The public will very shortly be invited, by advertisement, to subscribe for remaining shares.

A new edition of the Argentine Census has been proposed to the Government by Manzano, Gil & Co. at a cost of 6,400 pats. It is probable that the Government will accept the offer, as the present edition is nearly exhausted.

Letters from Rosario state that the German lugger Konin Wilhelm, bound from Hamburg to Rosario, suffered much on the voyage. She was just passing San Nicolas when the last storm caught her: she ran on a bank and lost two anchors. The next day she very luckily got off.

The Argentine Government has named as Argentine Vice Consul at Lagos, Mr. Lopez dos Reis, and at Ericeira also in Portugal Mr. Figueredo. By a letter this day received from Lisbon we learn that a very strong Portuguese emigration to the Plat may be looked for next year: up to the present all the emigration from Portugal has been to Brazil.

The Emigration Committee has sent up the sum of one thousand patacones to the Government of the Province of Santa Fe to be distributed amongst the unfortunate German colonists who have lost everything in the last terrible hail storm; this act merits the highest praise.

Mails, and nothing but mails now. To-day we had the Biela's mails up per Tycho Brahe: her dates from Rio are of the last importance. She brought the long-wished for news of the conclusion of the Mitre mission, which, coming as it does at a moment when our stock market is exultant, throws everything into the hands of the bulls. News comes so fast now, and advices on the heel of advices, that we all must be up and stirring to keep pace with the period; yet if we pause to look back but a month or so, how much is there in the retrospect to show the very serious errors of judgment in this market. We all recollect the gigantic sugar speculation, and the confirmed news respecting the army of reserve in Rio Grande, what fears were expressed? in fact, with what certainty most of the city papers pronounced the complete failure of the Mitre mission. The few who took a broad, comprehensive view of the question, and looked beyond local prejudices and newspaper hubbub, and were in a position to operate in the market, have made handsomely. It was stated to-day that one of the largest bond holders at present holds his stock at an average price of say 73, all bought up when the drop occurred in the market some four or five months ago on account of this Brazilian question; more money has been lost and made by this Brazilian affair than people are aware of, and the final conclusion of the question now brought down by the Biela, clears the market of a species of speculative bugbear that came on the heels of the Jordan revolution. We advert to it to show that all the bitter questions that crop up are always susceptible of a solution, and that those who lose faith in the peaceful progress of the nation, count without their host and inevitably secure losses.

The great real estate auction in the Plaza Victoria comes off to-morrow (Saturday) It is very seldom that property in the Plaza Victoria is put up at auction, and doubtless there will be a large attendance and the place will sell well, Messrs. Mitre Vedia and Co are the auctioneers: Mr. Escalante will sell on 2nd Dec. a large estancia in the partido 9 de Julio. 20 square leagues of land, Government land, it is a good chance for any one to secure a large tract of land at a little over the Government price. Messrs Rodriguez and Larrazabal hold a great real estate auction on Dec. 1st on the Gauna road; which road is now attracting speculators.

The old and vexed question about lienzos has again become the subject of dispute in the market. It appears that Messrs. Huergo and Perez sold some wool to Messrs. Hofman & Co.: the seller objected to the tare, 3 pounds for each lienzo, and after various efforts to arrange the matter it came before the judge of the market, who on hearing the case referred the question to Messrs. Unzue, Clausen, Duggan, Klengel, Robbio, Livingston and Lynch. The referees decided that the wool was to be received, and the lienzos weighed allowing their weight as the exact tare.

There was a report on 'Change to-day that when General Mitre returns from Rio, some international arrangement will be made between Uruguay, Argentine Republic and the Brazilian Empire on the subject of quarantine. Drs. Wild and Mallo leave immediately for M.Video, where a convention will be held,

From the 1st prox. it appears that a special shipping department will be set aside on the Bolsa, to be under the charge of Mr. Ifernet. Arrangements have also been made by the Bolsa Board with a Liverpool firm for the latest telegrams, which is also a move in the right direction; but the telegraph agent would be, perhaps, more effective in Lisbon. We can recommend Mr. Medlicott, who resides there, is always on the spot, and knows the market here so thoroughly that he knows what intelligence is worth the cost of a message.

An official notice from the courts calls for the heirs of the late Sarah Scott, to send in their claims to the escribania Agrelo.

On Sunday the Gambia will be out of quarantine, passengers may be looked for at an early hour.

Another question has arisen between the Boca port authorities and the Boca tramway, it appears that at some points on the banks of the river the tramway rails interrupt, the shipwrights and stop their business, the matter is before the Government. Does any one know how the Boca tramway pays? it is a private concern, the traffic is never published but it is always doing a roaring business.

The new steamer Belgrano is looked for in port in the morning, she has 200 Emigrants who have finished their quarantine in Montevideo and will at once come ashore when the steamer enters, people ask who are the agents of this line.

The Minister of Hacienda has just concluded a business with the River Plate Bank of Rosario, 200,000 pats at 7 per cent and 1 comm, we suppose Custom House bills, which has for its avowed object the helping of the Rosario discount market, and the reduction of interest in that Plaza.

The Liffey's gold has been landed and delivered to the Provincial Bank. This appears to be the last remittance this year to the Government on account of the loan; in fact, according to the Murrieto papers, the Government cannot sell any of the Stock to-day without a loss, and a stiff one too. The bonds, however, will be held to pay for the public works undertaken, and will not be sold in the market by the Government agent.

Numerous samples of every description of timber are now coming down fast from the interior, and it would seem probable that in a few years this great element of national wealth will be turned to advantage. The Germans have taken the lead already up the country, as we hear of a German saw-mill started in the provinces, another in Asuncion, where the company has bought up from Government the Arsenal of Lopez, and the machinery for the saw-mill is coming out from Antwerp.

The new market in South Barracas will be commenced early next month; the people thereabouts look forward to it as a great convenience. The empresario has paid a very stiff price for the land, 10,000$ m/c per vara front, and this for land the other side of the bridge: it is the highest that has yet been paid for land in that locality.

ON 'CHANGE AT MONTEVIDEO.

Thursday, 21st.

Fomento Territorial..... 12.
Internal Debt.....53½.

The news of the termination of the Argentine question at Rio was not generally known on 'Change. People continue to talk of local politics, to the exclusion of business.

The only stock showing any movement to-day was the Fomento Territorial—

70 shares cash at 12¼
72 " " at 12

There was a sale of Internal Debt yesterday after the usual hour at 53½ cash. The rate for the end of the year is 54.

Small amounts of exchange on England were done to-day at 51⅞, which shows downward tendency. Drawers are very scarce. In exchange on B. Ayres the latest transaction (14th) was one in which the drawer paid ⅛.

The banks are doing a little in discounts at 9 per cent.

The produce market is paralysed, the estancieros still holding out, very stiff for high prices for wool. An offer of 40r. for a lot, half bellies, fine wool, was refused to-day. The farmers want 42r. for fine wool, and will have to come down in their pretensions.

To show how little people think of business on the Bolsa, a debate occurred yesterday on Darwin's Origin of Man.

A gentleman named Jose V. Martinez has lost a roll of $2800 London Bank notes—he supposes near Calle Zavala, or in the Eastern Tramway cars.

The Junta of Public Credit burned yesterday the following securities:—

237 bonds for sale of the Custom-House at 250$ each.

286 Franco-English bonds, varying in value from 100 to 500$ each.

180 bonds of the Extraordinary Loan at 500$ each. The sum total of these 699 bonds was 226,200$.

The conversion of paper-money is now proceeding so slowly that at the present rate it would take about 40 weeks to complete. The total amount of gold paid out from the beginning does not reach two million dollars, and the original amount of the currency was believed to be over 7 millions. The conversion yesterday only reached 27,000$.

The official statement of the cancelling of public securities given in pledge to Thomson, Bonar and Co. for account of the last London Loan, October, 1871, is published in all the papers with the signature of Don Tomas Villalba and the rest of the Credit Board. The ceremony took place on the 8th inst., in presence of Mr. Adolph Pfeil, as special agent for Thomson, Bonar and Co., who saw a knife passed through the signatures of the 13,415 bonds, representing altogether the sum of 6,489,898$, viz.:—

7,648 old London bonds of the loan effected through Maua and Co. in 1864, representing $8,594,560.

3,510 bonds of the Funded Debt, 2nd series, of Feb., 1857, representing $1,754,791.

1,666 bonds of the Internal Debt, 2nd series, formerly held by the Banco Montevideano, and representing 820,175$.

471 bonds of the same description as the last, formerly held by the Italian Bank, and representing $235,500.

108 Bonds of the 1st series of Internal Debt representing $84,000.

2 Warrants for redemption of lands representing $370.

All the above will be solemnly burnt by the Junta of Public Credit on some day that may be shortly fixed, and Mr. Pfeil will be invited to attend.

The Customs-returns of October 1872 shew an enormous increase over those of the same month is previous years, viz—

Oct. 1871	$491,000
Oct. 1872	633,000
Increase (30 per cent)	142,000

If we deduct the proceeds of extra duties and new taxes levied to meet newly-made loans, we shall still find the ordinary duties in Oct. 1872 are 22 per cent. over those of the previous year, and 63 per cent. over the month of Oct. 1869.

Perhaps it will give a fairer idea of the rapid growth of shipping in the commerce of our port to say that the tonnage duties of Montevideo in Oct. 1872 were exactly double those of October 1870.

Messrs. Woodg to Brothers obtained the ordinary packet privileges to-day for their new steamer Clan-Alpino, whose figure-head is said to be much disfigured since running into the Brazilian. The latter vessel is believed to be in a bad way at St. Vincent's.

Among the B. Ayres visitors at present in town is Mr. Kinch, and Mr. Huxham, agent for Haycroft & Co. at Rio Grande, was saluted on 'Change.

H. M. gunboat Pert is re-coppering her bottom off Cape Santa Maria, the water there being so clear as to facilitate remarkably the operation. The gunboat Dart is expected, from Rio Janeyro, and will replace the Cracker, gone home. H. M. S. Pylades is in port: the rumor of a summer trip to the Falklands is incorrect. The U. S. gunboat Wasp burst some tubes at Rio Grande, and had only one boiler disposable; she is expected.

The Cuzco may be looked for by Saturday with latest news from Europe. Among her passengers is Mr. H. T. Hughes of New York, so well known in connection with tramway cars, after a year's absence from the River Plate.

The Solis Theatre Co. call for bids for the construction of a wing to the building.

Mesars. John Shaw and Co. report that among the cargo per Eugenio, from New York, to their consignment, are six new tramway cars for the Paso Molino line.

Most of the rails for the new Paso Duranas Tramway have now arrived, and are being discharged. This is the Brazilian enterprise known as Ferro-Carril Montevideano.

There were no fewer than eight vessels arrived with salt yesterday. None of the saladeros will begin to work before the new year.

The Poitou left to-day with mails and passengers for Marseilles; some people wrote by her.

The Biela has brought one day later from Brazil. Sovs. going up, at 9.350.

No steamer to-day from B. Ayres, except the Poitou.

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current is now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need in sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other rivalities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, will offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First:--The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

CELEBRATED SHEEP-DIP.

LICOR DERMATOSICO.

Prepared by

TORRE and BARTON, Druggists
DEFENSA, 65,67, and 69.

Guaranteed!

Infallible for the Cure of Scab in Sheep.

After long and innumbrable trials, we have succeeded in preparing the above Sheep-dip, by the use of which we guarantee the thorough eradication of Scab in Sheep.

Besides cheapness and easy application, it has the great advantage over all other similar preparations of being

COMPLETELY SOLUBLE IN WATER,

a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere.

BEAUTIFUL HAIR

Can only be obtained by the use of Rowland's Macassar Oil. It prevents the Hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft, pliable, and glossy. Price 3s. 6d., 7s., 10s. 6d. equal to four small, and 21s. per bottle.

IMPORTANT CAUTION.

Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each Bottle has a "Glass Stopper" in place of the Cork, as formerly. All with the 'Cork' are spurious imitations. This notice is deemed necessary, as the Proprietors have received intimation that a large quantity of Counterfeit, of the most pernicious quality, has lately been sent from France and Germany to India, South America, and the Colonies, under their names.

A BEAUTIFUL COMPLEXION

Is obtained by the use of Rowland's Kalydor, which allays all irritation and tenderness of the skin, removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the complexion and skin. During the heat and dust of Summer especially, and in cases of Sunburn and Stings of Insects, it is of the utmost use. Price 4s 6d and 8s. 6d. per bottle. Ask for "Rowland's Kalydor," and see that their signature is in red ink on every bottle, as theirs is the only genuine.

WHITE AND SOUND TEETH

Are indispensable to personal attraction, and te health and longevity, by the proper mastication of food. Rowland's Odonto or Pearl Dentifrice preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 9d. per box. Ask for 'Rowland's Odonto," and see that their name is on the Government Stamp of every box.

ROWLAND'S ESSENCE OF TYRE

Never fails to produce imediately a perfect change in Red or Grey Hair, Whiskers, Eyebrows, &c., to a beautiful glossy and permanent Brown or Black, which colour remains so durable that neither washing or perspiration can remove it. Price 4s., 7s. 6d, and 10s. 6d per bottle.

All these articles have been used and justly appreciated by all the Sovereigns and Courts of Europe, the Pope of Rome, and the aristocracy of Europe during the last seventy years, being of inestimable value to those who have once used them. They are sold by all Chemists, Perfumers, and Bazaars, throughout India, the Colonies, and South Ameriaa.

Ferruginous Gin.

ANALYSIS
BY
Professor Kyle.

The Iron exists in the form of a protosalt, one fluid ounce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place amongst chalybeate preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.
